Citizenship: U.S. / France (U.S. and EU work authorization)

EDUCATION

University of Southern California, Viterbi School of Engineering Expected May 2030
B.S. in Electrical and Computer Engineering Los Angeles, CA

- **Coursework in progress (Fall 2026):** EE 105 Intro to Electrical Engineering; EE 141L Applied Linear Algebra for Engineers (MATLAB); EE 155L Programming for Electrical Engineers; ENGR 102.

Kellenberg Memorial High School Graduated June 2026
Unweighted GPA 4.0 / Dual enrollment: Calculus 1 & 2, Physics Seminar, Astronomy Uniondale, NY

TECHNICAL PROJECTS

Terra — Android Travel History Tracker | Kotlin, Android SDK, Local Persistence 2026

- Designed and published a native Android application that logs coordinate and timestamp data on-device and reconstructs it into an animated playback of the user's travel history.
- Built an on-device rendering pipeline that composites the animated route into an exportable MP4 video.
- Published to the Google Play Store; managing releases, versioning, and issue tracking through Git.

Room Check — Published Multiplayer Game | Lua, Roblox Studio 2025 – 2026

- Built and shipped a multiplayer game to the Roblox platform, implementing gameplay logic, state synchronization across clients, and in-game economy systems in Lua.
- Configured a Model Context Protocol toolchain linking an external AI client to Roblox Studio to automate repetitive scripting and asset-editing tasks in the development workflow.

LEADERSHIP & ACTIVITIES

USC Rocket Propulsion Laboratory — Avionics Team 2026 – Present

- Member of the student team designing and building flight electronics for USC's launch vehicles.

Science Olympiad — Team Captain, New York State Qualifier Grades 9–12

- Earned 6 medals across four years of state-level competition; as captain, coordinated event assignments and preparation schedules for the team.
- Designed and iteratively tested turbine rotor geometry in CAD for a wind-powered energy-transfer event, tuning blade pitch and count across revisions to maximize rotational output under a fixed airflow source; placed 2nd in the event.

Varsity Cross Country — Team Captain Grades 9–12

- Led a roster of 15 athletes through daily training; qualified for the New York State championship meet as a senior.

WORK EXPERIENCE

Cradle of Aviation Museum September 2025 – June 2026
Junior Docent Garden City, NY

- Led interactive stations teaching aviation history and flight physics to museum guests.

All American Hamburger Drive In March – August 2026
Cashier Massapequa, NY

- Handled high-volume POS transactions and coordinated with kitchen staff during peak service hours.

Maplewood Summer Camp Summers 2024 – 2025
Camp Counselor Wantagh, NY

- Supervised groups of up to 30 campers; owned daily schedule logistics and safety accountability.

TECHNICAL SKILLS

Languages Kotlin, Java, Lua; C/C++, Python, and MATLAB (coursework in progress)
Tools Jetpack Compose, Android SDK, REST APIs, Git, Onshape, FDM 3D printing
Spoken Native French, English, and Hungarian; 5 years of Latin
